

MySECO Website Feedback Forum — March 2014

Let your voice be heard! Join the MySECO Website Feedback Forum. The Spouse Education Career Opportunities program values your opinion. Gathering spouse feedback is the most effective way to improve MySECO, the primary online platform for all SECO career and education information and services. MySECO allows users to quickly navigate and locate information across the SECO lifecycle stages: Career Exploration, Education and Training, Employment Readiness and Career Connections. In March, you will have an exciting opportunity to tell us what you think about MySECO by participating in the website feedback forum!

Spouses willing to volunteer a couple of hours of their time to help evaluate MySECO can participate in one of the following three ways:

<i>Virtual, Self-paced</i>	<i>On-site in a Computer Lab</i>	<i>MySECO Usability Webinar</i>
You can participate from your home using a computer, tablet or mobile device.	Spouses who live in the Washington, D.C. metro area can participate in person on March 7, 2014. This is the only in-person option.	The MySECO team will conduct a usability webinar on Friday, March 12, 2014, at [platform and coordination TBD].

If you are willing to participate in the MySECO Website Feedback Forum, please email the MySECO team at seco.usability@bamtech.net. Include the information below and indicate your preferred event. You will receive a confirmation email with additional information and participation instructions.
